

LIES, DECEIT AND NEFARIOUS SCHEMES
No. 35

This is LDNS (or at least, what's left of it) first issue of its new look. Before we get into the games I just want to take the time to thank everyone for all of the nice letters and comments concerning the folding of LDNS. Contrary to what you may have read elsewhere, I hope that you all realize that I didn't mean to imply last issue that you subscribers are idiots. I have never had a problem or an unhappy dealing with any of my subscribers. Thanx,

COA-Robert Berkeley 8 Briggs Ave, Bussards Bay/Cape Cod, MA 02532

Press:

VIENNA: The Interior Ministry noted with "great satisfaction" Italy's acceptance of an independent Austrian Eastern Policy.

The Austrian People warmly greet our French allies who have managed to display to the World the ineptitude of the German defenses. "Give 'em hell, Froggies. Put the kibosh on the Hun!"

Army Galicia: Gunz here. Well all is set. We have been issued 10 days rations, new weapons, new gear, new saw-edged bayonets, etc. We are moving up to the border and rumor has it that we will crash head on into the Russian Fortress of Rumania. It will be a bloody fight, but if we are to destroy Russia for her impudence we must protect our flanks and leaving a huge Russian army on our right would be madness. So off we go. Wish us well. Give my love to momma, Katzei and Hans.
Your Son, Gunz.

Serbia: Lt. General Von Shikelgraber ("The Moustache") has been given overall tactical command of Operation Sea View-the destruction of Russian Fortress Rumania. Headquarters have been set up in SAREJEVO for the grand assault. "It will be a bloody fight but it will be all Russian blood. I soon hope to be able to deal with those nincompoops the Turks in the streets of Constantinople."

Aegean: The Austrian Fleet today shelled the Bulgarian coast in a desultory fashion.

Vienna-Paris: Reconsider your position and finish the job. Beware of sideshows.

Vienna-Berlin: You fight well o silent one but I hope to eventually swing an Army onto your flank and crush you with a hearty dose of Austrian steel. Pity you joined the Russkie and Turks. It is so tragicque that Turtonic kinfolk should wage war on one another so now you must stew in your own juices.

Paris-A Flotilla, armed with the new 24 inch butterfly nets, has been dispatched to Rome to find out what the hell is going on.

From the Imperial Italian Summer Retreat on Capri: His Exaltedness, Emperor Meier the Magnificent, Munificent and Mighty formally declares that no further mediation in the German-Austrian Fraternal fracas will occur. According to the wishes of the Italian Empire's neighbor to the East, Italy will send a mercenary army to Galicia from Bohemia. Only Russian interference can prevent it. Since the Russian Empire is moribund we expect no problems but one never knows about Cliffov Hardisteyev, The Bungler of Scandinavia.

Italy declares to Europe that it welcomes the presence of the Trieste Army in Vienna. "In harmony with this move Italy supports the French Army of Silesia back into Munich. Since Austria and France are equals it is fitting that they "sit opposite one another one scale of justice, i.e. Munich and Vienna, with Italy being the fulcrum between in Tyrolia." (The source of this quote is not for public record).

In return for Greece Italy can but serve in gratitude. For three years now Austria has borne the brunt of repeated Eastern assaults. The vile and twisted Eastern politics practices by Turkey, Russia and

even Austria makes the area a bag of vipers, not the kind of place for upright Italians. The Italian Empire will follow the Austrian lead into this treacherous area. The ancient rumors that Turkish curs of Constantinople prey on each other and devour each other seem ever true these days. Only a leather skinned, brute minded could clean up such a mess. Of course Chancellor Berkeley is not Austrian, he's VIENNESE but his minions are something else again. Eccch. Montenegrin madman, Serbian scimitar swingers, Bosnian butchers, Herzogovian headchoppers, Albanian ex-throwers, Galician gut-gougers, Hungarian heart-hackers, Viennese vile vituperators, and Tyrolian turd-tossers. A revolting and churlish mob...but very effective. (The Viennese in this hoard are drawn from the dregs of Viennese society and are not to be considered to be of the same stock as "Die Sturm-meister" Herr Berkeley).

Thought for the season: Power is like water in cupped hands.
 Budapest: Chancellor Berkeley has released "Austria's Eastern Position Paper." The Rock of Austria stated: "We are still at War with Germany, Russia and Turkey as all three did violently assault the Austrian Nation in 1901 and four times in Grande Offensives of increasing Failure. The courage and tenacity of our troops and Navy and Italy's awakened sense of future subordination ("the Bastard's didn't even let me in on their plans") to Asian Perfidiousness saved Our Land and has shamed our enemies. Since not one of the Terrible Three have sought terms or made amends Austria will pursue the War as far as her capabilities will allow her until terms are sought or Austrian forces march into Moscow, Berlin and Ankara. A Pox on Germany! A Plague on Russia! May Terminal Flatulence inflict the Turks!"
 Vienna-Rome: It's not nice to bug the French-their tempermental and possess huge armies and fleets.

Winter 1903/spring 1904 orders are due Nov 17th.

Notes: This was one of the more "interesting" games that I've ever GM'd. At no time were the knives kept **silent!**. Congratulations to all and this game just shows how much better a game is when everybody stays in the game and retains their interest. Endgame statements are welcome.

A last note to all players As you can tell from this issue the NMR rate of the games may increase in the future. I will need the names of people who are will to offer their services as a standby. As of this writing I have No standbys.
